

23. The method of claim 21 wherein said step of receiving said picture file at said cellular telephone comprises receiving said picture file as a attachment to an email.

24. The method of claim 21 further comprising a step of storing said picture file on said cellular telephone.

25. The method of claim 21 wherein said step of providing a selection option comprises providing a selection box associated with said picture file which can be selected by a user.

26. A method of enabling the designation a picture file on a cellular telephone, said method comprising the steps of:

- storing a picture file on said cellular telephone;
- displaying said picture file on a display of said cellular telephone;
- providing a selection option associated with a picture file displayed on a display of said cellular telephone; and
- enabling a user to designate said selection option while said picture file is displayed on said cellular telephone.

27. The method of claim 26 further comprising a step of receiving said at least one picture file by way of a wireless link of a telecommunications network.

28. The method of claim 27 wherein said step of receiving a picture file by way of a wireless link of a telecommunications network comprises receiving said picture file as an attachment to an email.

29. The method of claim 26 wherein said step of enabling user to designate said selection option further comprises a step of enabling a user to select a function for presenting said picture file.

30. The method of claim 26 further comprising a step of enabling said user to enlarge said picture file.

31. A method of enabling the designation of a picture file on a cellular telephone, said method comprising the steps of:

- displaying a picture file on a cellular telephone;
- providing a selection option associated with said picture file when said picture file is displayed on said cellular telephone;
- enabling a user to designate a selection option associated with said predetermined picture file; and
- enabling a user to enlarge said picture file.

32. The method of claim 31 wherein said step of displaying a picture file on a cellular telephone comprises displaying a thumbnail of said picture file.

33. The method of claim 32 wherein said step of enlarging said picture file comprises a step of displaying said picture file as a window on a display of said cellular telephone.

34. The method of claim 31 further comprising a step of enabling the selection of said picture file.

35. The method of claim 31 further comprising a step of presenting said picture file having a designated selection option according to a user selectable function.

36. A method of enabling the designation of a picture file on a cellular telephone, said method comprising the steps of:

- storing a plurality of picture files on said cellular telephone;
- displaying said plurality of picture files as thumbnails on said cellular telephone;
- providing a plurality of selection options, each said selection option being associated with

a picture file of said plurality of picture files; and  
 enabling a user to designate each said selection option associated with said plurality of picture files.

37. The method of claim 36 further comprising a step of receiving at least one picture file of said plurality of picture files by way of a wireless link of a telecommunications network.

38. The method of claim 37 further comprising a step of enabling the selection a picture file of said plurality of picture files.

39. The method of claim 38 further comprising a step of enabling the enlargement of said picture file.

40. The method of claim 39 wherein said step of enabling a user to designate each said selection option associated with said plurality of picture files comprises a step of enabling a user to designate a selection box to select a display feature.

41. A cellular telephone capable display a picture file, said cellular telephone comprising:  
 a control circuit;  
 a memory coupled to said control circuit and storing said picture file;  
 a user interface coupled to said control circuit and enabling the user to access said picture file;  
 a display coupled to said control circuit and displaying said picture file and a selection option associated with said picture file.

42. The cellular telephone of claim 41 wherein said selection option comprises a check box .

43. The cellular telephone of claim 41 further comprising an icon on said display, said icon enabling access to said picture file when said icon is selected .

44. The cellular telephone of claim 41 further comprising a plurality of picture files stored in said memory.
45. The cellular telephone of claim 44 further comprising a plurality of selection boxes, each said selection box stored with a picture file of said plurality of picture files.
46. The cellular telephone of claim 41 wherein said selection box enables a user to select a function for displaying said picture file.
47. The cellular telephone of claim 41 wherein said user interface enables the selection of said selection box.
48. The cellular telephone of claim 41 wherein said user interface enables the user to enlarge the picture file.
49. The cellular telephone of claim 41 wherein said picture file comprises a thumbnail.
